About This Car

1969 912. Car spent most of it's life in Az, came to Calif about 10 yrs ago. I have the 69 912 motor (complete with exhaust still on it), when the previous owner got the car it was out with a VW engine, it now still runs a rebuilt (less than 1000 miles) 2180 type 1 motor with dual Dellorto's and a custom exhaust. He nor I ever put the 1600 in due to the nice increase in HP from the current one. The interior is in great shape, headliner good, seats recently recovered, carpet looks original and good. Even the clock works. Car has been lowered, new inner tie rods, new tires and 4 wheel alignment. Body and paint have patina, not perfect but solid, no rust. Windows, locks, lights, etc... all work. Great driver, love the car but do not want to leave it out this winter, lost it's inside spot for the rainy season. Original 15" Fuchs. Car is a great driver, it has been on many Porsche drives in the Nor Cal area. Recently at Tony's Classic Auto Werks to dial in the carbs and tune it up.
