

Record a 90-second video of your vehicle using your phone (exterior, interior, engine, start-up).

**Suggested Equipment – Always shoot in landscape (horizontal) format**

- Apple iPhone 8 or newer/ Samsung Galaxy S9 or newer
- Camera person or tripod
- (optional) DJI phone gimbal
- (optional) Lavalier microphone

**Environment**

- (ideal) cloudy weather, early morning, or dusk
- If in direct sunlight, please ensure the sun is in front of your vehicle, not behind
- Open air free of other vehicles or objects

**Key Points**

- Introduce yourself
- Mention the year/make/model of your vehicle
- Special features (if any)
- Tell the story of your vehicle while showing your vehicle's details (interior, exterior, and engine bay)
- Start your vehicle

Upload your video to one of the following services: Dropbox, Google Drive, Youtube

Submit the video to the designated link (we will provide you with the link)
